on 24 February, 2020

ANNUAL REPORT OF THE DAVID SASSOON INDUSTRIAL AND REFORMATORY INSTITUTION, MATUNGA, BOMBAY, FOR THE YEAR 1932-33.

1. Twelve ordinary meetings of the Committee were held during the year 1932-33.

The present personnel of the Committee is as follows :—

Nominated by Government.

R. K. Innes, Esq., Acting Chairman.

A. G. Gray, Esq.

Shariff Dewjee Kanjee, Esq.

Miss M. K. Davis.

Sir Currimbhoy Ebrahim, Bart.

Sir Hormazdyar P. H. Dastur, Kt., Ex-officio, Chief Presidency Magistrate.

Appointed by the Sassoon Family.

H. H. Sawyer, Esq.

Co-opted by the Committee.

Ishwardas Lukhmidas, Esq.

R. L. Ferard, Esq.

During the year under review the Institution suffered another loss by the death of Lt.-Col. M. P. Kharegat, I.M.S. (Retd.), who was a member of the Managing Committee for nearly twelve years. His long connection with everything pertaining to the boys' welfare and the benefits resulting directly by his efforts will gratefully be remembered.

Mr. F. J. Page, O.B.E., who was also a member of Committee for several years and only severed direct connection with the Institution at his appointment to the Railway Board, died as the result of a motoring accident in Great Britain.

2. *Accommodation and Building.*—The expenditure incurred by the Public Works Department on account of current repairs to the buildings during the year amounted to Rs. 7,085. Great demand has been made on accommodation during the year and occasionally more than 370 boys have been provided for.

3. *Statistics.*—For details see tabulated Statements 1 to 4 attached at the end of this report.

The number of admissions during the year was 99 as against 112 last year and the number discharged was 79 as against 127 in the previous year.

99 boys were admitted during the year as under :—

Committed under Childrens' Act through Juvenile Court	41
Committed under Childrens' Act through Kurla Court	1
Committed under I.P.C. from Juvenile Court ...	18
Committed for C.D.M. under Ordinances from Juvenile Court	18
Committed for C.D.M. by Presidency Magistrates under Ordinances	10
Committed for C.D.M. by Presidency Magistrates under I.P.C.	6
Committed under I.P.C. (not C.D.M.) by Magistrates	5
	99

The following particulars are of interest :—

Number committed during the year	...	99
Number committed as being destitutes	...	42 per cent.
Number committed as minor offences	...	6 per cent.
Number committed as major offences	...	16 per cent.
Number committed as Civil Disobedience	...	35 per cent.

4. *Discipline* of a gratifying standard has been maintained and punishment records show a distinct reduction in volume.

5. *Education.*—Vernacular Standard IV Examination was held under the auspices of the Bombay Municipal Schools' Committee and the results are as follows :—

Marathi—8 passed out of 8.
Gujarati—4 passed out of 4.
Urdu—6 passed out of 8.

Seven boys passed Vernacular IV Standard Examination, 2 in Marathi, 1 in Gujarati and 4 in Urdu, especially held by the Deputy Educational Inspectors owing to their commitment having expired before the Examination day.

The following number of boys passed the Vernacular V Standard Examination held by the different Deputy Educational Inspectors :—

Marathi—3 boys passed out of 3.
Gujarati—4 boys passed out of 4.
Urdu—5 boys passed out of 5.

General Drawing Examination :—

12 boys passed out of 12 in Elementary Grade.

St. John Ambulance Examination Results :—

First Aid Junior Examination :—

15 Candidates passed from Marathi side.

12 Candidates passed from Gujarati side.

15 Candidates passed from Urdu side.

The above Examination was held by Dr. J. D. Desai, M.B.B.S. Four boys were allowed to attend the School of Art for instruction in Stone-carving, Engraving, House Decoration and Painting and Silver Smith's work.

6. *Technical Education.*—Dr. G. W. Burley, the Secretary to the Committee of Direction for Technical Education, visited the Institution and expressed pleasure at the work that is accomplished. He remarks in the Visitors' Book that

> "Although the Institution was doing very good work in an exceedingly efficient manner on my last visit, I have noticed an all-round improvement and am of the opinion that the Institution is very well managed."

In spite of the depressed industrial conditions prevailing the sales of workshops products have reached a gratifying level and the closer association of technical lesson in the class room and practical demonstration in the work-shop has resulted in a noticeable improvement in the interest of the boys.

7. *Recreation.*—Cricket, Football and other Indian games are being played and matches played during the year are as follows :—

	Played.	Lost.	Won.	Drawn.
Cricket ...	24	10	10	4
Football ...	24	5	12	7

The Boxing Club is making excellent progress under the direction of Mr. Pardiwalla. Our boys were entered for the various Boxing Tournaments and the results are as follows :—

5 boys competing 3 won trophies—

Monitor Phillip Anthony.

„ Hussain Habib.

„ Matroo Mohomed.

9 boys competing 1 won trophy—

Javala Prasad.

1 received a Bronze Medal—

Matroo Mohomed.

The Bombay Presidency Amateur Boxing Federation Tournament :—

8 boys were sent up and 5 won their final bouts and received certificates.

Our Football Team entered for the Zorastrian Football Tournament although beaten, was awarded a special cup as a consolation prize and a Silver Medal was presented to one boy for his prowess.

A Bazar was held in the compound of the Institution on X'mas day when purchases were made by the boys from their respective "Mark Money Accounts". This innovation was most popular and will be repeated.

The Indian Red Cross Society very kindly presented the Institution with a gramophone which coupled with the Radio, gives the boys much pleasure and instruction. Magic Lantern Lectures continued to be given throughout the year. The Magic Lantern Slides were supplied by Mr. V. S. Toro, of the Visual Instruction Department and this feature is also very popular with the boys.

The Annual Camp Fire was held on the 5th January.

The usual Dewali sports were held in the grounds and some boys were taken to Bombay on Educational visits to places of interest.

8. The Swimming Bath has been in continuous use during the year.

9. Through the kindness of Mr. H. H. Sawyer it was made possible to hold the boys' Camp at Versowa and our thanks are due to Dr. D. D'Monte for having placed his wadi at our disposal.

10. The Boy Scout "Bunbury Troop" has maintained its full strength. Mr. C. H. Tyrrel, the Assistant District Commissioner, inspected the Troop on 4th September 1932.

Scout Idu Rasul won the Silver Medal for smartness for the year 1932. He was previously a member of the Hotson Pack of the Children's Home Junior School.

A small Camp was held in our compound when the Y.M.C.A. Worli Troop and the cubs of the Hotson Pack were invited to co-operate. Our "Bunbury Troop" supplied the Guard of Honour to His Excellency the Viceroy Lord Willingdon when he paid the Institution a visit on 15th December 1932.

Mrs. Middleton, Provincial Scout Commissioner of the Girls Guide, paid a visit to our Troop and distributed Badges to various Scouts.

11. The Annual Prize Distribution took place on the 13th March 1933 when His Excellency Sir Frederick Hugh Sykes, P.C., G.C.I.E., G.B.E., K.C.B., C.M.G., the Governor of Bombay, presided. His Excellency as usual evinced a great interest in the old boys and spoke to each one of them. Extracts from His Excellency's speech are included in this Report.

12. *Finance.*—My Committee is gratified at the results of the financial working of the Institution as the year under review has been an abnormal one owing to depression of trade. Our income from the Mill and private apprentices show a decrease owing to a mill having closed down and to the small number of private apprentices. Owing to strict economy in expenditure our accounts show a small surplus of Rs. 722-4-2 (and this is the sixth year in succession). Although the surplus is small compared with last year's saving it is considered satisfactory in view of the difficulties

prevailing. In this connection it is of interest to note that Rs. 14,080 was unspent from the Provincial grant and has been returned to Government.

We maintained a very high average of 368 boys for the whole year and the comparative cost per head per annum for this year is of interest :—

		Government. Rs. a. p.	To the Institution. Rs. a. p.
1931-32	...	178 6 1	224 15 3
1932-33	...	160 14 0	202 2 2

13. *Workshop accounts.*—The combined workshop accounts after debiting a sum of Rs. 5,831-12-0 (salaries of Maistries) show a loss of Rs. 3,378-11-4 against Rs. 3,049-15-9 in the previous year.

14. Religious Instruction is being continued as usual.

15. *Auxiliary Home.*—The statistics in Appendix C show the popularity of the Home. With the greatest difficulty the boys have been found employment. The Home is under the management of the Salvation Army and is directly supervised by Superintendent Adjutant I Argyle. Mr. Elisha who is the Secretary visits the Home regularly.

16. The health of the boys in the Institution has been good.

17. *Staff.*—The staff has maintained its reputation for zeal and the Committee counts itself fortunate in possessing a body of teachers imbued with modern ideas of those educational methods so essential for an Institution of this character.

18. *General.*—In view of the increasing difficulty in securing technical employment for boys on discharge, it was decided to consider the possibilities of an amplified scheme of agricultural training. A generous donation from Mr. E. Ezra has enabled such a scheme to be made practicable and it is hoped in our next report to record material progress. An agricultural teacher with excellent qualifications has been engaged and already our existing garden facilities are in the progress of reorganisation. I desire to record thanks to Mr. H. H. Sawyer who assumed chairmanship of the Committee for a portion of the year under review and gratitude to the members of the Committee who so ungrudgingly render much needed assistance.

R. K. INNES,
Chairman.

Extract from Chairman's speech at the Annual Prize Distribution held on 13th March 1933.

The year under review has been a satisfactory one, and as copies of the Annual Report have been distributed, I will endeavour to comment only on certain important features. Our capacity has been strained to the utmost as an average number of 368 boys have utilised the School's resources during the year, and it is with mixed feelings that we recognise the existence of a waiting list.

The workshops continue to thrive and it is the Managing Committee's constant care to combine commercial efficiency with the demands made by the peculiar nature of a craftsman training establishment.

Examinations may or may not represent the best method of estimating the value of the knowledge imparted in our class-rooms, but our boys have succeeded in satisfying the Educational Inspectors to a degree not hitherto attained, and I would pay tribute to the zeal of the Superintendent Mr. Desai and the teachers not only during strictly instructional time, but in those equally important auxiliary duties which they so successfully carry out.

As Your Excellency is aware, every encouragement is given to the development of the Boy Scout movement, and in addition to the "Bunbury Troop", we now have two packs of "Wolf-Cubs". This innovation makes another bond of Association with the Children's Home, from whence the majority of new boys reach us. Thus of 90 boys admitted during the year, 68 had received that invaluable attention which is paid to them at the Children's Home. Many of them on arrival are already Wolf-Cubs, and no pressure is necessary to induce them to join our newly-formed packs We believe, Your Excellency, Ladies and Gentlemen, that the paucity of entries in our Punishment Book is largely due to obligations imposed by Scout and Cub training.

I am well aware of Your Excellency's desire to see this School co-ordinating activities, not only with the Children's Home but with other welfare agencies, and there is no doubt that very tangible results will accrue from a merging of financial and educational resources, and technique, judging by the advantages which have already resulted from preliminary efforts made to that end.

Our Institution is rapidly changing its nature as we are called upon to receive those unfortunate boys, far from criminal in outlook, who are produced by overcrowding with it, the evil results, the joylessness of life in chawl and street, the lack of scope for play, and the curse of unemployment. We, therefore, seek to co-operate in any way with means designed to ensure the work such as is carried out here is definitely linked with an adequate probationary and After-Care System, and I would humbly acknowledge Your Excellency's official and personal efforts in the development of such measures.

His Excellency's remarks at the Annual Prize Distribution.

I esteem it a real privilege to have the opportunity of playing my part at the Annual Prize Day of an Institution that is so very efficiently and economically managed. I am sure that everybody must recognise the excellent work you are doing, but I personally have a very special reason for taking an even keener interest in your activities, for as I shall endeavour to show in a few moments, I regard the problem of dealing with destitute children and youthful delinquents as one of the most important of the many difficult problems which beset this City to-day, and I think that

any Institution which is making as great a contribution as yours towards a solution of this question deserves well indeed of the City and its inhabitants.

We have come to look upon the good management and efficiency of this Institution as a matter of course, and I am very glad to see that your report shows that the very high traditions which have been established have been fully maintained during the past year. I congratulate you, too, most heartily on having made such a striking reduction in the individual annual cost of maintenance.

It is indeed a notable achievement to have effected as large a reduction as 16 per cent. in this figure, and I can fully endorse your claim that the appearance of the boys and your medical reports show that this has been done without any sacrifice of efficiency. The progress of the boys in various examinations has also, I see, been good while discipline has fully come up to your usual very high standards.

Preventive Work.

In my speech last year I gave expression to my recognition of the fact that your Institution is as you say, rapidly changing its nature and that your work is becoming preventive rather than curative for so many of the boys whom you receive are not really of a criminal character at all, but have been left upon the streets and rescued by various philanthropic agencies.

This being so, I am very glad indeed that you recognise the importance of your school co-ordinating its activities with other welfare agencies as well as with the Children's Home. As you know, I personally and my Government are attaching an ever increasing importance to the whole question of welfare work among children, and you have no doubt seen in the press the announcement of the appointment of a Committee under Sir Hormazdyar Dastur, as Chairman with your Chairman, Mr. Innes, as one of the members to examine this whole question. I would mention that Miss Davis has also kindly consented to be one of the members.

Co-ordination.

I have great hopes that this Committee under the experienced guidance of Sir Hormazdyar Dastur, will be able to suggest ways in which the work of the various Institutions dealing with destitute children and youthful delinquents can be co-ordinated with the object of securing the greatest possible economy of the energies devoted to this work and the maximum outturn for the funds available. I trust that the Committee will also be able to indicate the most fruitful directions in which this kind of work which must engage the growing attention of the public, may be extended, and can suggest means for giving a greater degree of permanence to the results by proper after-care treatment on scientific lines.

I have always felt very strongly since I came to Bombay that failure to give a fair start in life to children left neglected on the streets is one of the most important contributory causes to the

existence of the beggar problems in Bombay, and even also to the development of mavali population. It has always seemed to me that the most promising line of attack on these two very difficult and most important problems is through welfare work among children. We look to the Committee to give us guidance in dealing with this problem, and we have made specific reference to the beggar and mavali problems in their terms of reference.

At the same time, the beggar and mavali population largely form the source which supplies youthful delinquents who ultimately swell the numbers in these Institutions. There is thus a vicious circle which it is up to us to break, and we look to the Committee to advise us as to the best methods of doing so by means of adopting as far as possible a unified and co-ordinated policy for dealing with the whole problem. I am sure that your Institution will be able to provide useful evidence to put before the Committee and I look to you with confidence to give them all the help that is in your power.

I would also commend their work to the general public of Bombay and hope that they will take a real interest in what the Committee are doing and help it in every way they can. It must be recognised that some of the recommendations of the Committee may involve sums which may not at present be available, yet it will nevertheless be very useful to have a clear line of policy laid out.

After paying a tribute to the Management and staff of the Institution, the Governor assured them that his impending departure from Bombay would not involve any diminution of his interest and sympathy in their doings and in their progress.

STATEMENT No. 1.

Working results for the year 1932-33.
